

The deaths from the plague were less on Wednesday than on the previous day by 57, and the fresh cases yesterday were generally reported as fewer and milder. We received communications yesterday condemning all the scribbling that is being indulged in by the press about the plague. One of our correspondents recommends strict silence on the point. There can be no doubt that the long lists of the names of those dead from the plague, and the horrible stories of all kinds recently published, have greatly increased the alarm of the population. The Boletín de la Epidemia, a sheet lately started by two enterprising young gentlemen anxious to encourage the laudable, is also doing infinite harm by publishing its lugubrious list of victims. The city has really gone epidemic mad, nothing seems capable of exciting the least attention but the one topic. Indeed there is an absence of what we are accustomed to call stirring news from any quarter. The Argentine Loan is used up as an anti-plague topic; the latest news about it is still 'not done yet,' and the next steamer will probably bring us equally satisfactory intelligence. Among the victims of the epidemic we regret to have to enumerate Dr. Gascon, a distinguished member of the Argentine bar, and Don Leon Rosas, a nephew of the celebrated dictator Rosas, who from the beginning of the epidemic had nobly devoted himself to the task of assisting his fellow creatures attacked by the epidemic. There is a proposal to stop all the daily papers until the present alarming circumstances through which we are passing assume a more favorable aspect. At all events it is believed that the three days holidays next week will be extended to the whole week. In Rio Janeiro when the yellow fever first broke out in 1850 the Exchange was closed during three weeks. The Cordillera made a splendid run out. One day during the passage she ran the great distance of 336 miles. In the Bay of Biscay, near where the Captain was lost, a terrific hurricane was encountered, but the noble ship went through it splendidly. When five days out from Lisbon a fire broke out in the drying room, but the energy and presence of mind of the Captain and crew mastered it in a few minutes. We are happy in being able to announce that a considerable improvement took place yesterday in the health of Mr. Samuel Wheelwright, whose attack of the epidemic was not, we understand, as severe as was at first feared by his numerous friends. We call the attention of those out of employment to the notice published in another column by the Immigration Commissioners. Employment for forty-two persons of various trades is offered by the Commissioners. Amongst the passengers by the Cordillera are Mr. William Leslie and Mrs. Leslie, Messrs. Krell, Nolan, Mr. and Mrs. Roncoroni, Mr. E. Madero, and other friends, all of whom we welcome on their return to the Plate. Consul and Mrs. Hutchinson, and Mr. Brownell went round in the Cordillera to Callao. We are happy to hear they are all in excellent health. The sale of burial 'boletos' by the Municipality during this month produced for the civic treasury the sum of \$70,000 mpc. News from Entre Rios announce that that province is now perfectly tranquil, except a few wandering bands of Gauchos here and there. The National Commissioner, Dr. Pico, arrived at Concepcion on the 22 inst. We are happy to hear that the Rev. Mr. Jackson, North American pastor, is rapidly recovering from the very severe attack of the plague he contracted in the discharge of his sacred duties. By latest advices from Mr. Villanueva, the chief engineer, who writes from Uspallata, at the foot of the Andes, on the Mendoza side, we learn with pleasure that he was on the point of starting to lay the subterranean cable across the highest point of the pass, which operation he was in hopes of concluding before the winter sets in. The Post Office machinery suffers through the epidemic as well as other departments. We could not get our Lisbon or London Letters yesterday in time to publish them to-day, though we appealed for them in moving tones, on behalf of our subscribers, but in vain. We shall, no doubt, receive them to-day.

The Committee of the Hospital being prohibited by the Municipality from receiving Yellow Fever Patients within the buildings, it has been resolved that all cases connected with the British Community will be cared for, as far as possible in their own residences, on application being made to the following gentlemen: Rev. Mr. SMITH, Scotch Church; Rev. Mr. ASHLE, English Church; Rev. Mr. LEITCH, English Church; or to Dr. CONYNGHAM, British Hospital. Or at his residence, No. 26 Calle Reconquista. BY ORDER, ALEX. MCGHIE, Hon. Sec. ON CHANGE. March 30, 1871. Ounces..... 400. Sovereigns..... 122. Patacones..... 25. The market regained its buoyancy to-day, and closed with great firmness at 66; buyers at this price. The news by the packet to the effect that Messrs. Murrieta had agreed to take the loan, and that a settlement had been arrived at with Messrs. Thompson & Bonar, tended to create a firm feeling, and when later in the day it was ascertained that there were parties willing to advance money on Bonds, the market assumed a very decided upward tendency, which was maintained at the close. Money ruled a shade easier, and something was done in discounts to-day, though still at very high rates. There seems to be some anxiety already evinced to secure the present high rates for money, and long dated bills may be said to be rather in request. The Bond sales to-day were as follows: For 31st inst. 1500 64. Do. 2000 64. Do. 3200 64. Do. 15000 64. Do. 1800 64. Ex-div. April 30 2000 64. Exchange for the French Packet closed at from 60d to 60 1/2 on London. But the greater part was passed at the latter rate. The monetary news from London is not in general very favourable. The tightness in the money market expected on the conclusion of the war has set in, and in consequence all stocks have fallen. The bank minimum has been raised to three per cent, and it was feared that a further rise might be found necessary. It is in consequence of this stringency that Messrs. Murrieta had temporarily postponed the launching of the new Argentine Loan. No fears are, however, entertained, as to the ultimate success of this operation. There has been little said for the past few days about a suspension of payments, which, coupled with the firm aspect of the Bond market, leads to the belief that the worst of the panic is past. There was some question about a statement of a few days since that some shares of the Popular Argentina had been sold at 200 premium? We are authorized to reiterate our statement; seven shares were sold at this price on Tuesday last, and there are buyers for more at this rate, but the number of the shares is so limited that few sellers can be found. The River Plate Bank has raised the rate of interest charged on account current to 12 per cent. to-morrow. It is remarked that no corresponding change is advertised in the rate of interest allowed on deposits. None of the other banks have as yet given notice of a change in their rates. To-morrow is settling day on 'Change, and some fears were expressed that some inconvenience would be occasioned in consequence of the heavy fluctuations in the funds, the scarcity of money and other unfortunate and unexpected events which have occurred during the month. The price of most of our produce is nominally risen here about 5 per cent. since the arrival of the French packet; the absence of almost all the principal barter goods has, however, made any transactions of importance impossible. The interruption of the telegraphic communication between this and Montevideo causes much inconvenience. Such was the damage done to the line by the last storm that spite of every exertion, it has not yet been found possible to complete the repairs.

NOTICE TO BRITISH SUBJECTS. HER BRITANNIC MAJESTY'S LEGATION. Her Britannic Majesty's Charge d'Affaires being fully aware of the deep sympathy which will be felt by Her Majesty's Government and the British public for the sad ravages caused to the inhabitants of Buenos Ayres by the ruling epidemic, and the concern which the sufferings of British subjects will occasion to them, is desirous of at once conveying to his countrymen of all denominations, without distinction, as an evidence of that interest, the assurance of his readiness, in conjunction with H.M.'s Consul, to render every assistance within the scope of their official authority towards relieving all cases of distress of a deserving character which may be brought under their notice; and he hereby invites all those poor and afflicted persons who have been deprived of the means of support to make personal application to Her Majesty's Legation or to the British Consulate, accompanying their applications with such recommendations as they are able to obtain from their respective clergymen or from any respectable resident.

SAVINGS BANK
BANK MAUA AND Co.
101-Cangallo-103
BUENOS AYRES.

The immense advantages of Accounts Current
we now so generally feel and appreciate in the
two great emporiums of the River Plate, Montevideo
and Buenos Ayres, that there are very few
Merchants who fail to keep one at the bank in
which they place the most confidence.

The Bank of Maua & Co. in Montevideo has
already provided for the working classes in that
city a safe and profitable depository for their
savings.

The sums deposited in that very important in-
stitution are daily increasing, and already reach
a very large amount.

These advantages have not hitherto been en-
joyed in this city by an immense number of clerks
artisans, working men, and all sorts of all classes
and conditions, who are equally interested in put-
ting their savings out at interest, thus providing
themselves with a reserve fund in case of need,
sickness, or old age, instead of expending them in
the immoral gambling, in lotteries, and other
frivolities.

The Bank of Maua & Co. of this city, following
the noble example of their firm in Montevideo,
now offer the same facilities in this city, and has

opened a Savings Bank at No. 103 Calle Cangallo
from Nine a.m. till Three p.m. every day, for the
reception of the savings of the classes already
mentioned. Sundays and holidays excepted.
The Bank will deliver to each depositor a pass
book, in which will be entered the amount de-
posited and withdrawn.

The depositor is permitted at any time to with-
draw the whole or part of the sum deposited; in
the former case the interest will be calculated up
to date.

The Bank of Maua & Co. is sufficiently known to
the Public by the benefit derived from the
accounting operations, which are regulated on
the strictest and soundest principles, and always
directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded
that this new branch of their business will render
immense service to the working classes of Buenos
Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1887.

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum
Twenty-five Dollars currency or one Silver
Dollar upwards.

Second—The interest allowed is six per cent.

NOTICE—In the advertisements of some makers of Portable Engines,
&c., great stress is laid by them upon the fact of their having obtained a
large number of Medals and Prizes at Agricultural Shows and other
Exhibitions, both in England and abroad, offering Medals and Prizes
for Portable Engines and Agricultural Machinery, without any efficient
test of real value, have multiplied enormously during the last few years.
C. and S. do not as a rule attend any but a few of the principal
shows, and whenever they have entered into fair competition they have
favorably maintained their position as the best makers of this class
of Machinery.

HEALTH RESTORED
THE USE OF
**BRISTOL'S SUGAR-COATED VEGE-
TABLE PILLS.**

These Pills have justly acquired a widely ex-
tended reputation for their wonderful cures of
severe cases of sickness—cases in which all other
Medicines had failed, and which had been given
up by Physicians as beyond help—such as con-
stipation, indigestion, and long-standing Biliousness, ob-
stinate cases of Piles, Dropsy, &c. But while
admitting their wonderful curative powers in
difficult cases, we wish to call attention to their
beneficial effects in the every-day illness, such as
Constipation, for which they are a perfect spe-
cific; Headache relieved and cured by one dose;
Indigestion always removed by them, and the
stomach so toned and strengthened as to pre-
vent a return. Bad Breath cannot exist when
the stomach is cleansed by

PILLS.**

**BRISTOL'S SUGAR-COATED VEGE-
TABLE PILLS.**

Purely Vegetable.

For Loss of Appetite they are the only sure
remedy, as they never fail in carrying off the
depraved, bilious secretions that fester in the
system, and destroy the healthy, natural crav-
ing for food. Sour Stomach, Heartburn, Flatu-
lency, and all Derangements of the Digestive
and excretory Organs, are promptly relieved
and cured by them. The public should always
bear in mind that Bristol's are the only Pills
made of
Podophyllin and Leptandrin.
The only vegetable substances yet discovered
that are really
Antibilious.
To the presence of which invaluable resins the
extraordinary success of Bristol's Pills may be
in a great measure be ascribed. It is necessary
however, that the dose should always remember
that in all diseases that have their origin in
the blood.

BRISTOL'S SANSAPARILLA.
That best of blood purifiers, should be used with
the Pills, the two Medicines being prepared ex-
actly to act in harmony together. When this
is done faithfully, we have no hesitation in say-
ing that great relief, and, in most cases, a cure,
can be guaranteed when the patient is not already
beyond human help.

For general directions and table of doses, see
the wrapper around each phial of Pills; but, as
different constitutions require different doses to
produce the same effect, it is better that each
person ascertain, by trial, the dose that suits their
system, and stick to that dose, instead of following
any general rule.

MARAVILLA COCOA
FOR BREAKFAST.

The *Globe* says—
"Various importers and manufacturers have
attempted to attain a reputation for the
prepared Cocoa, but we doubt whether any
throughout success has been achieved until Messrs.
Taylor Brothers, discovered the extraordinary
qualities of Maravilla Cocoa. Adapting their
perfect system of preparation to this finest of all
species of the Theobroma, they have produced an
article which surpasses every other Cocoa in the
market. Entirely soluble, a delicate aroma, and a
rare concentration of the purest elements of
nutrition, distinguish the Maravilla Cocoa above
all others. For homeopathic and medicinal uses,
we recommend a more agreeable or valuable
beverage." Sold in packets only by all Grocers,
of whom also may be had Taylor Brothers' Original
Homoeopathic Cocoa and Soluble Chocolate.

SAVINGS BANK
BANK MAUA AND CO.
101-Cangallo-103
BUENOS AYRES.

The immense advantage of Accounts Current
now so generally felt and appreciated in the
two great emporiums of the River Plate, Monte-
video and Buenos Ayres, that there are very few
Merchants who fail to keep one at the bank in
which they place the most confidence.

The Bank of Maua & Co. in Montevideo has
already provided for the working classes in that
city a safe and profitable depositary for their
savings.

The sums deposited in that very important in-
stitution are daily increasing, and already reach
a very large amount.

These advantages have not hitherto been en-
joyed in this city by an immense number of clients
arizans, working men, and men of all classes
and conditions, who are equally interested in put-
ting their savings out at interest, thus providing
themselves with a reserve fund in case of need,
old age, or illness, instead of spending them in
the immoral gambling, in lotteries, and other
frivolities.

The Bank of Maua & Co. of this city, following
the noble example of their firm in Montevideo,
now offer the same facilities in this city, and has

opened a Savings Bank at No. 103 Calle Cangallo
from Nine a.m. till Three p.m. every day, for the
reception of the savings of the classes already
mentioned. Sundays and holidays excepted.

The Bank will deliver to each depositor a pass
book, in which will be entered the amount de-
posited and withdrawn.

The depositor is permitted at any time to with-
draw the whole or part of the sum deposited; in
the former case the interest will be calculated up
to date.

The Bank of Maua & Co. is sufficiently known to
the Public by the honor derived from the course
of its operations, which are regulated on the
strictest and soundest principles, and always
directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded
that this new branch of their business will render
immense service to the working classes of Buenos
Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1887.

P. P. MAUA & CO.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum
from Twenty-five Dollars currency or one Silver
Dollar upwards.

Second—The interest allowed is six per cent.
per annum, which is liquidated every
six months.

Third—The depositors can at any time receive
the whole or part of the money deposited.

Fourth—Once the money deposited exceeds
Twenty-five thousand dollars currency, or one
thousand dollars silver, the depositor, if he wishes
can open an account current, according to the
rules established by the Bank.

Fifth—In case the depositor loses his pass book
it can be replaced by another on paying twelve
dollars currency, and advertising the loss in the
public newspapers.

large number of Medals and Prizes at Agricultural Shows and other
Exhibitions.

Exhibitions, both in England and abroad, offering Medals and Prizes for
Portable Engines and Agricultural Machinery, without any efficient
test of real value, have multiplied enormously during the last few years.
C. and S. do not as a rule attend any but a few of the principal
shows, and whenever they have entered into fair competition they have
favorably maintained their position as the best makers of this class
of Machinery.

HEALTH RESTORED
BRISTOL'S SUGAR-COATED VEGE-
TABLE PILLS.

These Pills have justly acquired a widely ex-
tended reputation for their wonderful cure of
severe cases of sickness—cases in which all other
Medicines had failed, and which had been given
up by Physicians as beyond help—such as con-
firmed and long-standing Bilious Complaints, ob-
stinate cases of Piles, Dropsy, &c. But while
admitting their wonderful curative powers in
difficult cases, we wish to call attention to their
great value in the every day diseases of life, such
as Constipation, for which they are a perfect spe-
cific; Headache relieved and cured by one dose;
Indigestion always removed by them, and the
stomach so toned and strengthened as to pre-
vent a return. Bad Breath cannot exist when
the stomach is cleansed by
BRISTOL'S SUGAR-COATED PILLS.

Purely Vegetable.

For Loss of Appetite they are the only sure
remedy, as they never fail in carrying off the
depraved bilious secretions that float in the
stomach and destroy the healthy, natural crav-
ing for food. Stomach, Heartburn, Flatu-
lency, and all Derangements of the Digestive
and excretory Organs, are promptly relieved
and cured by them. The public should always
bear in mind that Bristol's are the only Pills
made of

Podophyllin and Leptandrin.

The only vegetable substances yet discovered
that are really

Antibilious.

To the presence of which invaluable resins the
extraordinary success of Bristol's Pills may be
in a great measure be ascribed. It is necessary,
however, that the sick should always remember
that in all diseases that have their origin in the
blood.

BRISTOL'S SARSAPARILLA.

That best of blood purifiers, should be used with
the Pills, the two Medicines being prepared ac-
cording to the laws of harmony together. When this
is done faithfully, we have no hesitation in say-
ing that great relief, and, in most cases, a cure,
can be guaranteed when the patient is not already
beyond human help.

For general directions and table of doses, see
the wrapper around each pill of Pills; but, as
different constitutions require different doses to
produce the same effect, it is better that each
person ascertain, by trial, the dose that suits their
system, and take that dose, instead of following
any general rule.

DR. J. COLLIS BROWNE'S
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.
CAUTION.—Vice-Chancellor Sir W. P. Wood
stated that Dr. COLLIS BROWNE'S was un-
doubtedly the inventor of CHLORODYNE,
that the story of the Defendant, Freeman, being
the inventor was deliberately untrue, which he
recited had been sworn to. Eminent Hospi-
tal Physicians of London stated that Dr. J. Col-
lis Browne was the discoverer of Chlorodyne,
that they prescribed it largely, and mean no other
than Dr. Browne's—"The Times," July 12, 1864.

The Public, therefore, are cautioned against
using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE
REMEDIAL, CURE AND ACTION.

This INVALUABLE REMEDY produces
quiet, refreshing sleep, relieves pain, calms the
system, restores the deranged functions, and
stimulates healthy action of the secretions of the
body, without creating any of those unpleasant
results so often attendant on the use of opium,
young may take it at all hours and times when re-
quisite. Thousands of persons testify to its mar-
vellous good effects and wonderful cures, while
Medicine men extol its virtues, and have been
using it in great quantities in the following
diseases:—

Diseases in which it is found eminently useful—
Cholera, Dysentery, Diarrhoea, Colic, Cramps,
Asthma, Rheumatism, Neuralgia, Cough, Croup,
Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.
The right Hon. Earl Russell communicated to
the College of Physicians and J. T. Davernport
that he had received information to the effect that
the only remedy of any service in Cholera was
Chlorodyne.—See Lancet Dec. 31, 1864.

From A. Montgomery, Esq., Inspector of
Hospitals, Bombay:—"Chlorodyne is a most val-
uable remedy in Neuralgia, Asthma and Dysen-
tery. To it I fairly owe my restoration to health
after 18 months' severe suffering, and while other
remedies had failed."

Dr. Lowe, Medical Missionary in India, re-
ports [Dec. 1865] that nearly every case of
Cholera in which Dr. J. Collis Browne's Chlo-
rodyne was administered the patient recovered.

Extract from Medical Times, Jan. 12, 1866.—
"Chlorodyne is prescribed by scores of orthodox
medical practitioners. Of course it would not
thus be so generally popular did it not 'supply a
want and fill a place.'"

Extract from the General Board of Health,
London, as to its efficacy in Cholera.—"So strongly
are we convinced of the immense value of
this remedy, that we cannot too forcibly urge the
necessity of adopting it in all cases."

Beware of spurious and dangerous compounds
sold as CHLORODYNE from which frequent
overwhelming medical testimony accompanies
each bottle.
